Net Impact	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
General Fund Balance	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

Description of fiscal impact

Senate Bill 98 distinguishes between traditional cigarettes that are combustible from those that only require heating for the purpose of applying a different tax rate to them. These heated-not-burned (HNB) cigarettes would be taxed at \$0.85 per pack of 20 compared to \$1.70 per pack of 20 for traditional cigarettes. Both types of cigarettes would be taxed the same rate for packs that contain a number other than 20, which is \$0.85 per cigarette. According to the Department of Revenue and Department of Justice, HNB cigarettes have no history of being sold in Montana, thus House Joint Resolution 2 does not forecast any being sold in the forecast period.

FISCAL ANALYSIS

Assumptions

- Under current law, all tobacco cigarettes are taxed at \$1.70 per pack. SB 98 would tax heated-not-burned (HNB) cigarettes at a different rate of \$0.85 per pack of 20.
- Since HNBs would likely be a novelty product in Montana, it is assumed SB 93 will have a de minimis impact.

Technical Concerns

- Heated not burned cigarette is not defined in this bill. There may be ambiguity in enforcing what is a burned vs. heated but not burned cigarette.
