ARTICLE 1

PURPOSE

The purpose of this compact is to reduce the burdens on state governments and to facilitate the interstate practice and regulation of massage therapy with the goal of improving public access to, and the safety of, massage therapy services. Through this compact, the member states seek to establish a regulatory framework that provides for a new multistate licensing program. Through this additional licensing pathway, the member states seek to provide increased value and mobility to licensed massage therapists in the member states, while ensuring the provision of safe, competent, and reliable services to the public.

(1) This compact is designed to achieve the following objectives, and the member states hereby ratify the same intentions by subscribing hereto:

- (a) increase public access to massage therapy services by providing for a multistate licensing pathway;
- (b) enhance the member states' ability to protect the public's health and safety;
- (c) enhance the member states' ability to prevent human trafficking and licensure fraud;
- (d) encourage the cooperation of member states in regulating the multistate practice of massage

therapy;

(e) support relocating military members and their spouses;

(f) facilitate and enhance the exchange of licensure, investigative, and disciplinary information between the member states;

(g) create an interstate commission that will exist to implement and administer the compact;

(h) allow a member state to hold a licensee accountable, even where that licensee holds a multistate license;

(i) create a streamlined pathway for licensees to practice in member states, thus increasing the mobility of duly licensed massage therapists; and

(j) serve the needs of licensed massage therapists and the public receiving their services.

(2) Nothing in this compact is intended to prevent a state from enforcing its own laws regarding the practice of massage therapy.

(3) Nothing in this compact may affect the requirements established by a member state for the

issuance of a single-state license.

(4) A multistate license issued to a licensee must be recognized by each remote state as an authorization to practice massage therapy in each remote state.

ARTICLE 4

(a) must hold an active single-state license to practice massage therapy in the applicant's home state;

ARTICLE 5

AUTHORITY OF INTERSTATE MASSAGE COMPACT COMMISSION AND MEMBER STATE LICENSING AUTHORITIES

- (1) Nothing in this compact, nor any rule of the commission, may be construed to limit, restrict, or in any way reduce the ability of a member state to enact and enforce laws, regulations, or other rules related to the practice of massage therapy in that state, where those laws, regulations, or other rules are not inconsistent with the provisions of this compact.
- (2) Nothing in this compact, nor any rule of the commission, may be construed to limit, restrict, or in any way reduce the ability of a member state to take adverse action against a licensee's single-state license to practice massage therapy in that state.
- (3) Nothing in this compact, nor any rule of the commission, may be construed to limit, restrict, or in any way reduce the ability of a remote state to take adverse action against a licensee's authorization to practice in that state.

(4) Nothing in this compact, nor any rule of the commission, may be construed to limit, restrict, or in any way reduce the ability of a licensee's home state to take adverse action against a licensee's multistate license based upon information provided by a remote state.

(5) Insofar as practical, a member state's licensing authority shall cooperate with the commission and with each entity exercising independent regulatory authority over the practice of massage therapy according to the provisions of this compact.

ARTICLE 6

ADVERSE ACTIONS

(1) A licensee's home state must have exclusive power to impose an adverse action against a licensee's multistate license issued by the home state.

(2) A home state may take adverse action on a multistate license based on the investigative information, current significant investigative information, or adverse action of a remote state.

(3) A home state shall retain authority to complete any pending investigations of a licensee practicing under a multistate license who changes their home state during the course of such an investigation. The licensing authority must also be empowered to report the results of such an investigation to the commission through the data system as described herein.

(4) Any member state may investigate actual or alleged violations of the scope of practice laws in any other member state for a massage therapist who holds a multistate license.

(5) A remote state must have the authority to:

(a) take adverse actions against a licensee's authorization to practice;

(b) issue cease and desist orders or impose an encumbrance on a licensee's authorization to practice in that state;

(c) issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing authority in a member state for the attendance and testimony of witnesses or the production of evidence from another member state must be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings before it. The issuing licensing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service

statutes of the state in which the witnesses or evidence are located.

(d) if otherwise permitted by state law, recover from the affected licensee the costs of investigations and disposition of cases resulting from any adverse action taken against that licensee; and

(e) take adverse action against the licensee's authorization to practice in that state based on the factual findings of another member state.

(6) If an adverse action is taken by the home state against a licensee's multistate license or single-state license to practice in the home state, the licensee's authorization to practice in all other member states must be deactivated until all encumbrances have been removed from such license. All home state disciplinary orders that impose an adverse action against a licensee must include a statement that the massage therapist's authorization to practice is deactivated in all member states during the pendency of the order.

(7) If adverse action is taken by a remote state against a licensee's authorization to practice, that adverse action applies to all authorizations to practice in all remote states. A licensee whose authorization to practice in a remote state is removed for a specified period of time is not eligible to apply for a new multistate license in any other state until the specific time for removal of the authorization to practice has passed and all encumbrance requirements are satisfied.

(8) Nothing in this compact may override a member state's authority to accept a licensee's participation in an alternative program in lieu of adverse action. A licensee's multistate license must be suspended for the duration of the licensee's participation in any alternative program.

(9) Joint investigations:

(a) In addition to the authority granted to a member state by its respective scope of practice laws or other applicable state law, a member state may participate with other member states in joint investigations of licensees.

(b) Member states shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

ARTICLE 7

ACTIVE MILITARY MEMBERS

AND THEIR SPOUSES

current license to practice massage therapy in good standing. The individual may retain their home state designation during any period of service when that individual or their spouse is on active duty assignment.

(f) Nothing in this compact may be construed to be a waiver of sovereign immunity by the member

states or by the commission.

(7) Member states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.

ARTICLE 10

RULEMAKING

(1) The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A rule may be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review.

(2) The rules of the commission must have the force of law in each member state, provided however that where the rules of the commission conflict with the laws of the member state that establish the member state's scope of practice as held by a court of competent jurisdiction, the rules of the commission must be ineffective in that state to the extent of the conflict.

(3) The commission may exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules must become binding as of the date specified by the commission for each rule.

(4) If a majority of the legislatures of the member states rejects a rule or portion of a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within 4 years of the date of adoption of the rule, then such rule may not have further force and effect in any member state or to any state applying to participate in the compact.

(5) Rules may be adopted at a regular or special meeting of the commission.

(6) Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

(7) Prior to adoption of a proposed rule by the commission, and at least 30 days in advance of the meeting at which the commission will hold a public hearing on the proposed rule, the commission shall provide a notice of proposed rulemaking:

- (a) on the website of the commission or other publicly accessible platform;
- (b) to persons who have requested notice of the commission's notices of proposed rulemaking;

and

- (c) in such other way(s) as the commission may by rule specify.

(8) The notice of proposed rulemaking must include:

- (a) the time, date, and location of the public hearing at which the commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the commission will consider and vote on the proposed rule;
 - (b) if the hearing is held via telecommunication, video conference, or other electronic means, the commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking;
 - (c) the text of the proposed rule and the reason therefor;
 - (d) a request for comments on the proposed rule from any interested person; and
 - (e) the manner in which interested persons may submit written comments.
- (9) All hearings will be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule must be available to the public.

(10) Nothing in this article may be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this article.

(11) The commission shall, by majority vote of all commissioners, take final action on the proposed rule based on the rulemaking record.

(a) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(b) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(c) The commission shall determine a reasonable effective date for the rule. Except for an

emergency as provided in subsection 12 of this article, the effective date of the rule may not be sooner than 30 days after the commission issuing the notice that it adopted or amended the rule.

(12) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with 24 hours' notice, provided that the usual rulemaking procedures provided in the compact and in this article must be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately to:

- (a) meet an imminent threat to public health, safety, or welfare;
- (b) prevent a loss of commission or member state funds;
- (c) meet a deadline for the promulgation of a rule that is established by federal law or rule; or
- (d) protect public health and safety.

(13) The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions must be posted on the website of the commission. The revision may be subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

(14) No member state's rulemaking requirements may apply under this compact.

ARTICLE 11

OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

(1) Oversight:

(a) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(b) Venue is proper and judicial proceedings by or against the commission must be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The

commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein may affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(c) The commission must be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and must have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process must render a judgment or order void as to the commission, this compact, or promulgated rules.

(2) Default, technical assistance, and termination:

(a) If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default must describe the default, the proposed means of curing the default, and any other action that the commission may take, and must offer training and specific technical assistance regarding the default.

(b) The commission shall provide a copy of the notice of default to the other member states.

(3) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the delegates of the member states, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(4) Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's state licensing authority, and each of the member states' state licensing authority.

(5) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(6) Upon the termination of a state's membership from this compact, that state shall immediately provide notice to all licensees who hold a multistate license within that state of such termination. The terminated

state shall continue to recognize all licenses granted pursuant to this compact for a minimum of 180 days after the date of said notice of termination.

(7) The commission may not bear any costs related to a state that is found to be in default or that has been terminated from the compact unless agreed upon in writing between the commission and the defaulting state.

(8) The defaulting state may appeal the action of the commission by petitioning the U.S. district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party must be awarded all costs of such litigation, including reasonable attorney fees.

(9) Dispute resolution:

(a) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(b) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

(10) Enforcement:

(a) The commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact and the commission's rules.

(b) By majority vote as provided by commission rule, the commission may initiate legal action against a member state in default in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party must be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein may not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or the defaulting member state's law.

(c) A member state may initiate legal action against the commission in the U.S. district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party must be awarded all costs of such litigation, including reasonable attorney fees.

(d) No individual or entity other than a member state may enforce this compact against the commission.

ARTICLE 12
EFFECTIVE DATE, WITHDRAWAL,
AND AMENDMENT

(1) The compact must come into effect on the date on which the compact statute is enacted into law in the seventh member state.

(a) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the charter member states to determine if the statute enacted by each such charter member state is materially different than the model compact statute.

(i) A charter member state whose enactment is found to be materially different from the model compact statute must be entitled to the default process set forth in article 11.

(ii) If any member state is later found to be in default or is terminated or withdraws from the compact, the commission shall remain in existence and the compact must remain in effect even if the number of member states should be less than seven.

(b) Member states enacting the compact subsequent to the charter member states must be subject to the process set forth in article 8(3)(w) to determine if their enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

(c) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission coming into existence must be considered to be actions of the commission unless specifically repudiated by the commission.

(d) Any state that joins the compact must be subject to the commission's rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission must have the full force and effect of law on the day the compact becomes law in that state.

(2) Any member state may withdraw from this compact by enacting a statute repealing that state's enactment of the compact.

(a) A member state's withdrawal may not take effect until 180 days after enactment of the

repealing statute.

(b) Withdrawal may not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(c) Upon the enactment of a statute withdrawing from this compact, a state shall immediately provide notice of such withdrawal to all licensees within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all licenses granted pursuant to this compact for a minimum of 180 days after the date of such notice of withdrawal.

(3) Nothing contained in this compact may be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

(4) This compact may be amended by the member states. No amendment to this compact may become effective and binding upon any member state until it is enacted into the laws of all member states.

ARTICLE 13

CONSTRUCTION AND SEVERABILITY

(1) This compact and the commission's rulemaking authority must be liberally construed so as to effectuate the purposes and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules may not be construed to limit the commission's rulemaking authority solely for those purposes.

(2) The provisions of this compact must be severable, and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any member state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance may not be affected thereby.

(3) Notwithstanding subsection (2) of this article, the commission may deny a state's participation in the compact or, in accordance with the requirements of article 11, subsection (2), terminate a member state's participation in the compact, if it determines that a constitutional requirement of a member state is a material

departure from the compact. Otherwise, if this compact must be held to be contrary to the constitution of any member state, the compact must remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

ARTICLE 14
CONSISTENT EFFECT AND CONFLICT
WITH OTHER STATE LAWS

Nothing herein may prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact. Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict. All permissible agreements between the commission and the member states are binding in accordance with their terms.

Section 2. Criminal background check for multistate licensure. (1) Each applicant for multistate licensure to practice massage therapy shall submit a full set of the applicant's fingerprints to the board for the purpose of obtaining a state and federal criminal history background check.

(2) Each license applicant is responsible to pay all fees charged in relation to obtaining the state and federal criminal history background check.

(3) The board may require a licensee renewing a license to submit a full set of the licensee's fingerprints to the board for the purpose of obtaining a state and federal criminal history background check.

(4) The Montana department of justice may share the fingerprint data obtained under subsection (1) or (3) with the federal bureau of investigation.

Section 3. Codification instruction. (1) [Section 1] is intended to be codified as an integral part of Title 37, chapter 33, and the provisions of Title 37, chapter 33, apply to [section 1].

(2) [Section 2] is intended to be codified as an integral part of Title 37, chapter 33, part 5, and the provisions of Title 37, chapter 33, part 5, apply to [section 2].

Section 4. Contingent effective date. [This act] is effective on the date that the compact has been legislatively enacted into law by the seventh member state. The department of labor and industry shall notify

the code commissioner within 15 days of the occurrence of the contingency.
