### Description of fiscal impact

SB 190 reinstates the waiver of adverse effect for water right permit and change applications. This will have no fiscal impact to the Department of Natural Resources and Conservation (DNRC).

### FISCAL ANALYSIS

#### Assumptions

#### Department of Natural Resources and Conservation

1. Water Resources Division staff will continue to complete the existing evaluation for water right permit and change applications; however, water rights in which a waiver of adverse effect have been provided will not be considered in those evaluations.
2. When waivers were previously permitted (October 1, 2017-Sept. 30, 2023), DNRC processed a total of 734 permit and change applications. Waivers were received on a total of 7 applications.
3. DNRC anticipates receiving a similar volume of waivers as a result of SB 190. Time saved in the evaluation process as a result of these waivers will be negligible. There will be no fiscal impact as a result of this change in process.
