NEW SECTION. Section 3. State registration requirements -- registration fee. (1) The board, oversight entity, or the department, if there is no board, shall register a health care provider not licensed in this state as a telehealth or telemedicine provider if the health care provider:

- (a) completes an application in the format prescribed by the board, oversight entity, or department;
 - (b) is currently licensed, registered, or certified with an active, unencumbered license, registration, or certificate that is issued by another state, the District of Columbia, or a possession or territory of the United States and is substantially similar to a license, registration, or certificate accepted in or issued by this state; and

NEW SECTION. Section 4. Ineligibility for registration -- notification requirement. (1) A health care provider may not register under [section 2] if the health care provider's license, registration, or certificate to provide health care services issued by another state, the District of Columbia, or a possession or territory of the United States is subject to a pending disciplinary investigation, action, or proceeding or has been revoked in any state or jurisdiction.

- (2) A health care provider registered under [section 2] shall notify the appropriate board, oversight

entity, or the department, if there is no board, of restrictions imposed on the health care provider's license, registration, or certificate to provide health care services and of any disciplinary action initiated, taken, or pending against the provider relating to the provider's license, registration, or certificate to provide health care services in another state, the District of Columbia, or a possession or territory of the United States.

(3) The notification required by this section must be provided within 5 business days after a restriction is imposed on the health care provider's license, registration, or certificate or disciplinary action is initiated.

NEW SECTION. Section 5. Discipline for noncompliance. (1) The board, oversight entity, or the department, if there is no board, may take disciplinary action against a health care provider registered under [section 2] if the health care provider:

(a) fails to notify the applicable board, oversight entity, or the department, if there is no board, of any adverse action taken against the health care provider's license, registration, or certificate to provide health care services as required under [section 4];

(2) Disciplinary action taken by a board, oversight entity, or the department, if there is no board, under this section may include suspension or revocation of the health care provider's registration or the issuance of a reprimand or a letter of concern. The suspension of a health care provider's registration may include a corrective action plan as determined by the board, oversight entity, or the department, if there is no board, the completion of which may lead to the health care provider's reinstatement according to rules adopted by the board, oversight entity, or the department, if there is no board.

NEW SECTION. Section 6. Location of services -- venue. For the purposes of this section, an act

1 that constitutes the delivery of health care services is deemed to occur at the place where the patient is located
2 when the act is performed or in the patient's county of residence. Venue for a civil or administrative action
3 initiated by the appropriate board, oversight entity, or department or a patient who receives telehealth or
4 telemedicine services from an out-of-state provider is the location of the patient's county of residence. By
5 registering under [sections 1 through 9], a health care provider consents to and is subject to the personal
6 jurisdiction of this state in any action arising out of the provision of a telehealth service in this state.
