(b) the state has a legitimate interest in maintaining the economic viability of the ski industry by discouraging claims based on damages resulting from the inherent dangers and risks of skiing, defining the inherent dangers and risks of skiing, and establishing the duties of skiers and ski area operators; and

(c) in order to safeguard the life, health, property, and welfare of the citizens of the state while using passenger ropeways, as defined in 23-2-702, the policy of the state must be to:

7 the passenger ropeway until final action on the application has been taken by the board.

8 (3) If an operator files an application with the board for the registration of a passenger ropeway,  
9 which at the time is registered, then the operator may continue the operation of the passenger ropeway under
