Section 1. Section 7-15-4291, MCA, is amended to read:

"7-15-4291. Voluntary agreement to remit unused portion of urban renewal district tax increments. (1) Subject to subsections (2) through (5), a local government with an urban renewal district containing a tax increment provision may enter into an agreement to remit any portion of the annual tax increment not currently required for the payment of the costs listed in 7-15-4288 or pledged to the payment of the principal of premiums, if any, and interest on the bonds referred to in 7-15-4289. The remittance agreement must:

(a) provide for remittance to each taxing jurisdiction for which the mill rates are included in the

calculation of the tax increment as provided in 7-15-4286(1) and (2); and

(b) require that the remittance be proportional to the taxing jurisdiction's share of the total mills levied.

(2) Any portion of the increment remitted to a school district pursuant to 7-15-4286(3) or this section:

(a) must be used to reduce property taxes or designated as operating reserve pursuant to 20-9-104 for the fiscal year following the fiscal year in which the remittance was received;

(b) must be deposited in one or more of the following funds that has a mill levy for the current school year, subject to the provisions of Title 20 and this section:

(i) general fund;

(ii) bus depreciation reserve fund;

(iii) debt service fund;

(iv) building reserve fund;

(v) technology acquisition and depreciation fund; and

(c) may not be transferred to any fund.

(3) The remittance will not reduce the levy authority of the school district receiving the remittance in years subsequent to the time period established by subsection (2)(a).

(4) Any portion of the increment remitted to a school district and deposited into the general fund must be designated as operating reserve pursuant to 20-9-104 or used to reduce the ~~BASE budget levy or the over-BASE budget levy~~ in the following fiscal year.

(5) If a school district does not utilize the remitted portion to reduce property taxes or designate the remittance as operating reserve within the time period established by subsection (2)(a), the unused portion must be remitted as follows:

(a) if the area or district is in existence at the time of the remittance, the portion is distributed to the special fund in 7-15-4286(2)(a) and used as provided in 7-15-4282 through 7-15-4294; or

(b) if the area or district is not in existence at the time of the remittance, the portion is distributed pursuant to 7-15-4292(2)(a)."

Section 2. Section 15-1-402, MCA, is amended to read:

"15-1-402. Payment of property taxes or fees under protest. (1) (a) The person upon whom a property tax or fee is being imposed under this title may, before the property tax or fee becomes delinquent, pay under written protest that portion of the property tax or fee protested.

(b) The protested payment must:

(i) be made to the officer designated and authorized to collect it;

(ii) specify the grounds of protest; and

(iii) not exceed the difference between the payment for the immediately preceding tax year and the amount owing in the tax year protested unless a different amount results from the specified grounds of protest, which may include but are not limited to changes in assessment due to reappraisal under 15-7-111.

(c) If the protested property tax or fee is on property that is subject to central assessment pursuant to 15-23-101, the person shall report to the department the grounds of the protest and the amount of the protested payment for each county in which a protested payment was made.

(2) A person appealing a property tax or fee pursuant to Title 15, chapter 2 or 15, including a person appealing a property tax or fee on property that is annually assessed by the department or subject to central assessment pursuant to 15-23-101, shall pay the tax or fee under protest when due in order to receive a refund. If the tax or fee is not paid under protest when due, the appeal or mediation may continue but a tax or fee may not be refunded as a result of the appeal or mediation.

(3) If a protested property tax or fee is payable in installments, a subsequent installment portion considered unlawful by the Montana tax appeal board need not be paid and an action or suit need not be commenced to recover the subsequent installment. The determination of the action or suit commenced to recover the first installment portion paid under protest determines the right of the party paying the subsequent installment to have it or any part of it refunded to the party or the right of the taxing authority to collect a subsequent installment not paid by the taxpayer plus interest from the date the subsequent installment was due.

(4) (a) Except as provided in subsection (4)(b), all property taxes and fees paid under protest to a county or municipality must be deposited by the treasurer of the county or municipality to the credit of a special fund to be designated as a protest fund and must be retained in the protest fund until the final determination of

any action or suit to recover the taxes and fees unless they are released at the request of the county, municipality, or other local taxing jurisdiction pursuant to subsection (5). This section does not prohibit the investment of the money of this fund in the state unified investment program or in any manner provided in Title 7, chapter 6. The provision creating the special protest fund does not apply to any payments made under protest directly to the state.

(b) (i) Property taxes that are levied by the state against property that is centrally assessed pursuant to 15-23-101 and ~~any protested taxes on industrial property that is annually assessed by the department in a school district that has elected to waive its right to protested taxes in a specific year pursuant to 15-1-409~~ must be remitted by the county treasurer to the department for deposit as provided in subsections (4)(b)(ii) through ~~(4)(b)(iv)~~ (4)(b)(iii).

(ii) The department shall deposit 50% of that portion of the funds levied for the university system pursuant to 15-10-109 in the state special revenue fund to the credit of the university system, and the other 50% of the funds levied pursuant to 15-10-109 must be deposited in a centrally assessed property tax state special revenue fund.

(iii) Fifty percent of the funds remaining after the deposit of university system funds must be deposited in the state general fund, and the other 50% must be deposited in a centrally assessed property tax state special revenue fund.

~~(iv) Fifty percent of the funds from a school district that has waived its right to protested taxes must be deposited in the state general fund, and the other 50% must be deposited in a school district property tax protest state special revenue fund.~~

(5) (a) Except as provided in ~~subsections (5)(b) and (5)(c)~~ subsection (5)(b), the governing body of a taxing jurisdiction affected by the payment of taxes under protest in the second and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled, except the amount paid by the taxpayer in the first year of the protest. The decision in a previous year of a taxing jurisdiction to leave protested taxes in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled, except the first-year protest amount.

(b) The governing body of a taxing jurisdiction affected by the payment of taxes under protest on

property that is centrally assessed pursuant to 15-23-101 or on industrial property that is assessed annually by the department in the first and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled. The decision in a previous year of a taxing jurisdiction to leave protested taxes of centrally assessed property in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled.

~~(c) — The provisions of subsection (5)(b) do not apply to a school district that has elected to waive its right to its portion of protested taxes on centrally assessed property and on industrial property that is assessed annually by the department for that specific year as provided in 15-1-409.~~

(6) (a) If action before the county tax appeal board, Montana tax appeal board, or district court is not commenced within the time specified or if the action is commenced and finally determined in favor of the department of revenue, county, municipality, or treasurer of the county or the municipality, the amount of the protested portions of the property tax or fee must be taken from the protest fund or the centrally assessed property tax state special revenue fund and deposited to the credit of the fund or funds to which the property tax belongs, less a pro rata deduction for the costs of administration of the protest fund and related expenses charged to the local government units.

(b) (i) If the action is finally determined adversely to the governmental entity levying the tax, then the treasurer of the municipality, county, or state entity levying the tax shall, upon receipt of a certified copy of the final judgment in the action and upon expiration of the time set forth for appeal of the final judgment, refund to the person in whose favor the judgment is rendered the amount of the protested portions of the property tax or fee that the person holding the judgment is entitled to recover, together with interest from the date of payment under protest. ~~The department shall refund from the school district property tax protest state special revenue fund the protested portions of property taxes and interest to a taxpayer in a school district in which the school district has elected to waive its right to its portion of protested taxes for that specific year as provided in 15-1-409. If the amount available for the refund in the school district property tax protest state special revenue fund is insufficient to refund the property tax payments, the department shall pay the remainder of the refund from the state general fund.~~

(ii) The taxing jurisdiction shall pay interest at the rate of interest earned by the pooled investment

fund provided for in 17-6-203 for the applicable period.

(c) If the amount retained in the protest fund is insufficient to pay all sums due the taxpayer, the treasurer shall apply the available amount first to tax repayment, then to interest owed, and lastly to costs.

(d) (i) (A) If, after a final determination by the Montana tax appeal board or a court or after settlement of an appeal, the final assessed value of a property that is centrally assessed under 15-23-101 or an industrial property that is annually assessed by the department is less than 75% of the department's original assessed value, the governing body may demand that the state refund from the general fund the protested taxes equivalent to the difference between the final determined assessed value and 75% of the original assessed value.

~~(B) — For industrial property under subsection (6)(d)(i)(A) in which the school district has elected to waive its right to its portion of protested taxes for that specific year, the department shall refund from the school district property tax protest state special revenue fund the protested portions of property taxes and interest to a taxpayer.~~

~~(C)(B)~~ The provisions of subsection (6)(d)(i)(A) do not apply to protested taxes for which the taxpayer protests the classification of the property.

(ii) If the protest action is decided adversely to a taxing jurisdiction and the amount retained in the protest fund is insufficient to refund the tax payments and costs to which the taxpayer is entitled and for which local government units are responsible, the treasurer shall bill and the taxing jurisdiction shall refund to the treasurer that portion of the taxpayer refund, including tax payments and costs, for which the taxing jurisdiction is proratably responsible. The treasurer is not responsible for the amount required to be refunded by the state treasurer as provided in subsection (6)(b).

(iii) For an adverse protest action against the state for centrally assessed property, the department shall refund from the centrally assessed property tax state special revenue fund the amount of protested taxes and from the state general fund the amount of interest as required in subsection (6)(b). The amount refunded for an adverse protested action from the centrally assessed property tax state special revenue fund may not exceed the amount of protested taxes or fees required to be deposited for that action pursuant to subsections (4)(b)(ii) and (4)(b)(iii). If the amount available for the adverse protested action in the centrally assessed property tax state special revenue fund is insufficient to refund the tax payments to which the taxpayer is

entitled and for which the state is responsible, the department shall pay the remainder of the refund proportionally from the state general fund and from money deposited in the state special revenue fund levied pursuant to 15-10-109.

(e) In satisfying the requirements of subsection (6)(d), the taxing jurisdiction, including the state, is allowed not more than 1 year from the beginning of the fiscal year following a final resolution of the protest. The taxpayer is entitled to interest on the unpaid balance at the rate referred to in subsection (6)(b) from the date of payment under protest until the date of final resolution of the protest and at the combined rate of the federal reserve discount rate quoted from the federal reserve bank in New York, New York, on the date of final resolution, plus 4 percentage points, from the date of final resolution of the protest until refund is made.

(7) A taxing jurisdiction, except the state, may satisfy the requirements of this section by use of funds from one or more of the following sources:

(a) imposition of a property tax to be collected by a special tax protest refund levy;

(b) the general fund or any other funds legally available to the governing body; and

(c) proceeds from the sale of bonds issued by a county, city, or school district for the purpose of deriving revenue for the repayment of tax protests lost by the taxing jurisdiction. The governing body of a county, city, or school district is authorized to issue the bonds pursuant to procedures established by law. The bonds may be issued without being submitted to an election. Property taxes may be levied to amortize the bonds.

(8) If the department revises an assessment that results in a refund of taxes of \$5 or less, a refund is not owed."

Section 3. Section 20-3-209, MCA, is amended to read:

Section 5. Section 20-5-323, MCA, is amended to read:

"20-5-323. Tuition and transportation -- rates. (1) Except as provided in subsections (2) through (5), whenever a child enrolls in and attends a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, the district of residence shall pay the district of attendance a percentage

equal to the lesser of the percentage of either school district's adopted general fund budget funded by BASE and-over-BASE property tax levies in the year of attendance not to exceed ~~35.3%~~20% of the tuition per-ANB amount for the year of attendance as described in 20-5-324.

(2) Except for the tuition paid by the district of residence under 20-5-324(2)(b), the tuition for a child with a disability must be determined under rules adopted by the superintendent of public instruction for the calculation of tuition for special education pupils. The rules must provide:

(a) that tuition amounts must be reduced by the funding generated by the district of attendance due to the child's attendance; and

(b) an option for tuition set at the actual unique costs of providing a free appropriate public education.

(3) The state-paid tuition rate for out-of-district placement pursuant to 20-5-321(1)(d) and (1)(e) in addition to the tuition paid by the district of residence under 20-5-324(2)(b) for a student without disabilities who requires a program with costs that exceed the average district costs must be determined as the actual individual costs of providing that program according to the following:

(a) the district of attendance and the district or entity responsible for the tuition payments shall approve an agreement for the tuition cost;

(b) for a Montana resident student, 120% of the tuition per-ANB amount, received in the year for which the tuition charges are calculated, must be subtracted from the per-student program costs for a Montana resident student; and

(c) the maximum tuition rate paid to a district under this subsection (3) may not exceed \$2,500 per student.

(4) When a child attends a public school of another state or province, the amount of daily tuition may not be greater than the average annual cost for each student in the child's district of residence. This calculation for tuition purposes is determined by totaling all of the expenditures for all of the district budgeted funds for the preceding school fiscal year and dividing that amount by the October 1 enrollment in the preceding school fiscal year. For the purposes of this subsection, the following do not apply:

(a) placement of a child with a disability pursuant to Title 20, chapter 7, part 4;

(b) placement made in a state or province with a reciprocal tuition agreement pursuant to 20-5-

(6) The amount, if any, charged for transportation may not exceed the lesser of the average transportation cost for each student in the child's district of residence or 35 cents a mile. The average expenditures for the district transportation fund for the preceding school fiscal year must be calculated by dividing the transportation fund expenditures by the October 1 enrollment for the preceding fiscal year.

(7) As used in this section, "tuition per-ANB amount" means the applicable per-ANB maximum rate established in 20-9-306, plus the per-ANB amounts of the instructional block grant and related services block grant under 20-9-321."

Section 6. Section 20-5-324, MCA, is amended to read:

"20-5-324. Tuition payment provisions -- state obligations -- district obligations -- financing -- reporting. (1) In order to be eligible to receive state reimbursement or payment under subsection (2)(a), the trustees of a district shall report to the superintendent of public instruction by June 30 the following information for the concluding school fiscal year:

(b) the number of days of enrollment for each child reported under the provisions of subsection (1)(a);

(c) the annual tuition rate for each child's tuition payment, as determined under the provisions of 20-5-323, and the tuition cost for each child reported under the provisions of subsection (1)(a);

(d) the names, districts of attendance, and amount of tuition paid by the district for resident students attending public schools out of state; and

(e) the names, schools of attendance, and amount of tuition to be paid by the district for resident students attending day-treatment programs under approved individualized education programs at private,

nonsectarian schools.

(2) (a) Subject to the limitations of 20-5-323, the superintendent of public instruction shall:

(i) except as provided in subsection (2)(b) of this section, pay the district of attendance the amount of the tuition obligation reported under subsection (1)(c) of this section, prorated for the actual days of enrollment;

(ii) determine the total per-ANB entitlement for which the district of residence would have been eligible if the students reported in subsections (1)(d) and (1)(e) of this section had been enrolled in the resident district in the prior year; and

(iii) reimburse the district of residence for the state portion of the per-ANB entitlement for each student reported in subsections (1)(d) and (1)(e) of this section, not to exceed the district's actual payment of tuition or fees for service for the student in the previous year.

(b) The district of residence for each child reported under the provisions of subsection (1)(a) of this section shall pay the district of attendance the tuition rate under 20-5-323(1) prorated for the actual days of enrollment. The superintendent of public instruction is only responsible for any additional tuition amount pursuant to 20-5-323(2) and (3).

(3) Whenever a child enrolls in and attends a school outside of the child's district of residence under the provisions of 20-5-320 or 20-5-321, by July 15 following the year of attendance, the district of attendance shall notify the district of residence of an obligation under 20-5-323.

(4) (a) (i) When a child attends a school outside the child's district of residence at the resident district's expense under the provisions of 20-5-320 or 20-5-321 or when a child has approval to attend a day-treatment program under an approved individualized education program at a private, nonsectarian school located in or outside of the child's district of residence, the district of residence shall finance any tuition amount required under 20-5-323 from the levy authorized to support the district tuition fund or from the district's general fund or any other legally available fund in the discretion of the trustees and any transportation amount from the levy authorized to support the transportation fund or from the district's general fund or any other legally available fund in the discretion of the trustees.

(ii) By December 31 of the school fiscal year following the year of attendance, the district of residence shall pay at least one-half of any tuition and transportation obligation established under subsection

(4)(a)(i). The remaining tuition and transportation obligation must be paid by June 15 of the school fiscal year following the year of attendance.

(iii) In addition to use of a tuition levy to pay tuition for out-of-district attendance of a resident pupil, a school district may also include in its tuition levy an amount necessary to pay for the full costs of providing a free appropriate public education, as defined in 20-7-401, in the district to any child with a disability who lives in the district. The amount of the levy imposed for the costs associated with educating each child with a disability under this subsection (4)(a)(iii) is limited to the actual cost of service under the child's individualized education program minus:

- (A) the student's state special education payment;
- (B) the student's federal special education payment;
- (C) the student's per-ANB amount;
- (D) the prorated portion of the district's basic entitlement for each qualifying student; and
- (E) the prorated portion of the district's general fund payments in 20-9-327 through 20-9-330 for each qualifying student.

(b) When a child has approval to attend a school outside the child's district of residence because of a parent's or guardian's request under the provisions of 20-5-320 or 20-5-321(1)(c), the parent or guardian of the child is responsible for transportation unless otherwise agreed to in the out-of-district attendance agreement.

(5) (a) Except as provided in subsection (5)(b), the district of attendance shall anticipate and credit tuition receipts to the district general fund, ~~to reduce the general fund net levy requirement first to the BASE budget and any remaining to the over-BASE budget pursuant to 20-9-141,~~ and transportation receipts to the transportation fund. ~~In order to provide local property tax reduction for the tuition amount received under 20-5-323(1), the amount of the reduction in the BASE budget mills levied as a result of anticipated tuition payments must be calculated as a final step in computing the district's general fund net BASE levy requirement pursuant to the procedure set forth in 20-9-141(2) and the district's guaranteed tax base aid must be calculated prior to the reduction in BASE mills.~~

Section 15. Section 20-9-308, MCA, is amended to read:

"20-9-308. BASE budgets and general fund budget limits. (1) The trustees of a district shall adopt a general fund budget that is at least equal to the BASE budget established for the district. The trustees of a district may adopt a general fund budget up to the greater of:

- (a) the current year maximum general fund budget; or
- (b) the previous year's general fund budget plus any increase in direct state aid for the basic and per-ANB entitlements and any increases in state funding of the data-for-achievement payment under 20-9-325 and in the general fund payments in 20-9-327 through 20-9-330.

(2) (a) Except as provided in subsection (2)(b), whenever the trustees of a district propose to adopt a general fund budget that exceeds the BASE budget for the district and propose to increase the over-BASE budget levy over the highest revenue previously authorized by the electors of the district or imposed by the district in any of the previous 5 years to support the general fund budget, the trustees shall submit a proposition to the electors of the district, as provided in 20-9-353.

(b) The intent of this section is to increase the flexibility and efficiency of elected school boards without increasing school district property taxes. In furtherance of this intent and provided that budget limitations otherwise specified in law are not exceeded, the trustees of a district may increase the district's over-BASE budget levy without a vote if the board of trustees reduces nonvoted property tax levies authorized by law to be imposed by action of the trustees of the district by at least as much as the amount by which the over-BASE budget levy is increased. The ongoing authority for any nonvoted increase in the over-BASE budget levy imposed under this subsection (2)(b) must be decreased in future years to the extent that the trustees of the district impose any increase in other nonvoted property tax levies.

Section 16. Section 20-9-310, MCA, is amended to read:

"20-9-310. Oil and natural gas production taxes for school districts -- allocation and limits. (1)

Except as provided in subsection (5), the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget, determined in accordance with 20-9-308.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) Except as provided by 15-36-332(9), the department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. The department of revenue shall deposit any amount exceeding the limitation in subsection (1) in the guarantee account provided for in 20-9-622.

(4) ~~(a)~~ Subject to the limitation in subsection (1) ~~and the conditions in subsection (4)(b)~~, the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

~~(b) — Except as provided in subsection (4)(c), if the trustees apply an amount less than 12.5% of the total oil and natural gas production taxes received by the district in the prior school fiscal year to the district's general fund BASE budget for the upcoming school fiscal year, then:~~

(i) — the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) — the mills levied under subsection (4)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) — the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (4)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) — The provisions of subsection (4)(b) do not apply to the following:

(i) — a district that has a maximum general fund budget of less than \$1 million;

(ii) — a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) — a district that has a maximum general fund budget of \$1 million or more and was eligible for a significant enrollment increase payment pursuant to 20-9-166 in the fiscal year immediately preceding the fiscal year to which the provisions of this subsection (4) would otherwise apply; or

(iv) — a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(5) (a) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district that was eligible for a significant enrollment increase payment pursuant to 20-9-166. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the fiscal year immediately following the fiscal year in which the district was eligible and must be calculated by multiplying \$45,000 times each additional ANB used to calculate the significant enrollment increase payment pursuant to 20-9-166, including the absorption factor reduction.

(b) For a district in nonoperating status under 20-9-505, the maximum amount of oil and natural

gas production taxes that a school district may retain is 130% of the school district's maximum budget in the district's most recent operating year, determined in accordance with 20-9-308.

(6) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall."

Section 17. Section 20-9-336, MCA, is amended to read:

"20-9-336. School equalization and property tax reduction account -- uses. (1) There is a school equalization and property tax reduction account in the state special revenue fund. Contingent on appropriation by the legislature, money in the account is for distribution to school districts as the second source of funding for state equalization aid as provided in 20-9-343. At fiscal yearend, any fund balance in the account exceeding what was appropriated must be transferred to the guarantee account established in 20-9-622.

(2) The account receives revenue as described in 20-9-331, 20-9-333, and 20-9-360.

(3) Beginning in fiscal year 2025, each December the superintendent of public instruction shall forecast the amount of revenue the account will receive in that fiscal year by dividing the sum of the taxable value of all property in the state reported by the department of revenue pursuant to 20-9-369 by 1,000 to determine a statewide value mill and then multiplying that amount by 95 mills, or the number of mills calculated by the department of revenue under 15-10-420(8) for the applicable fiscal year. If the forecasted amount differs from the amount determined through the same calculation in the prior fiscal year by \$2 million or more and is:

(a) less, then the superintendent shall:

(i) decrease the multiplier used to calculate the statewide elementary and high school guaranteed ~~tax base ratios used for funding BASE budgets~~ guaranteed tax base ratio for the countywide levy for BASE funding support under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of guaranteed tax base aid distributed to eligible school districts ~~counties~~ equal to 85% of the decrease in the calculated amount between the 2 years; and

(ii) decrease the multiplier used to calculate the statewide elementary and high school mill value per ANB for school retirement guaranteed tax base purposes under 20-9-366 to the nearest whole number

determined by the superintendent to result in a decrease in the amount of retirement guaranteed tax base aid distributed to eligible school districts equal to 15% of the decrease in the calculated amount between the 2 years;

(b) more, then the superintendent shall increase the multipliers used in the guaranteed tax base formulas under 20-9-366 and in the formula for school major maintenance aid under 20-9-525 to the nearest whole number by an amount calculated by the superintendent to result in an increase in the amount of guaranteed tax base aid and school major maintenance aid distributed to eligible counties and school districts equal to 55% of the increase in the calculated amount between the 2 years in the following order, with any amount exceeding the caps under subsections (3)(b)(i) through (3)(b)(iii) flowing to the next mechanism:

(i) first, the multiplier used in calculating the statewide mill value per elementary and high school ANB for retirement purposes, not to exceed 305%;

(ii) second, the multiplier used in calculating the amount of state school major maintenance aid support for each dollar of local effort, not to exceed 365%; and

(iii) third, the multiplier used in calculating the facility guaranteed mill value per ANB for school facility entitlement guaranteed tax base purposes, not to exceed 300%.

(4) (a) The adjustments to the multipliers under subsection (3) are applicable to state equalization aid distributions in the fiscal year following the adjustment.

(b) Adjustments to the multipliers made under subsection (3) remain in effect in subsequent years unless further changed under 20-9-366 or subsection (3) of this section or as otherwise provided by law."

Section 18. Section 20-9-366, MCA, is amended to read:

(1) ~~"County retirement mill value per elementary ANB" or "county retirement mill value per high school ANB" means the sum of the taxable valuation in the previous year of all property in the county divided by 1,000, with the quotient divided by the total county elementary ANB count or the total county high school ANB count used to calculate the elementary school districts' and high school districts' prior year total per-ANB entitlement amounts.~~

(2)(1) (a) "District-County elementary guaranteed tax base ratio" or "county high school guaranteed tax base ratio" for guaranteed tax base funding for the countywide levy for BASE budget funding support of an eligible district-county means the taxable valuation in the previous year of all property in the district, ~~except for property value disregarded because of protested taxes under 15-1-409(2) or property subject to the creation of a new school district under 20-6-326~~ county, divided by the district's sum of the prior year GTBA budget area areas of the elementary school districts or the high school districts in the county. The GTBA budget areas for joint districts must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county.

(b) "District mill value per ANB", for school facility entitlement purposes, means the taxable valuation in the previous year of all property in the district, except for property subject to the creation of a new school district under 20-6-326, divided by 1,000, with the quotient divided by the ANB count of the district used to calculate the district's prior year total per-ANB entitlement amount.

(2) "County retirement mill value per elementary ANB" or "county retirement mill value per high school ANB" means the sum of the taxable valuation in the previous year of all property in the county divided by 1,000, with the quotient divided by the total county elementary ANB count or the total county high school ANB count used to calculate the elementary school districts' and high school districts' prior year total per-ANB entitlement amounts.

For fiscal year 2024 and subsequent fiscal years, the superintendent of public instruction shall ~~increase the multiplier, not to exceed 262%, in this subsection (5)(a) as follows:~~

(i) — ~~for fiscal years 2024 through 2031, if the revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year is at least \$1 million more than the revenue transferred in the fiscal year 2 years prior, then:~~

(A) — ~~multiply the amount of increased revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year above the amount of revenue transferred in the fiscal year 2 years prior by 0.25, divide the resulting product by \$500,000, and round to the nearest whole number; and~~

(B) — ~~add the number derived in subsection (5)(a)(i)(A) as a percentage point increase to the multiplier used for the prior fiscal year;~~

(ii) — ~~for fiscal years 2024 through 2031, if the revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year is less than \$1 million more than the revenue transferred in the fiscal year 2 years prior, then the multiplier is equal to the multiplier used for the prior fiscal year;~~

(iii) — ~~for fiscal years 2032 and subsequent fiscal years, the multiplier is equal to the multiplier used for fiscal year 2031; and~~

(iv) — ~~for all multiplier increases under this subsection (5)(a), the calculations are made in the year prior to the year in which the increase to the multiplier takes effect and impacts distribution of guaranteed tax base aid.~~

- (b) "Statewide mill value per elementary ANB" or "statewide mill value per high school ANB", for

school retirement guaranteed tax base purposes, means, subject to adjustment under 20-9-336, the sum of the taxable valuation in the previous year of all property in the state, multiplied by 189% and divided by 1,000, with the quotient divided by the total state elementary ANB count or the total state high school ANB amount used to calculate the elementary school districts' and high school districts' prior year total per-ANB entitlement amounts."

Section 19. Section 20-9-367, MCA, is amended to read:

(1) If the ~~district guaranteed tax base ratio of an elementary or high school district county~~ elementary or high school guaranteed tax base ratio is less than the corresponding statewide elementary or high school guaranteed tax base ratio, the ~~district county~~ may receive guaranteed tax base aid based on the number of mills levied in the district in support of up to 35.3% of the basic entitlement, up to 35.3% of the total per-ANB entitlement, and up to 40% of the special education allowable cost payment budgeted within the general fund budget for the countywide levy for BASE funding support.

(2) If the county retirement mill value per elementary ANB or the county retirement mill value per high school ANB is less than the corresponding statewide mill value per elementary ANB or high school ANB, the county may receive guaranteed tax base aid based on the number of mills levied in the county in support of the retirement fund budgets of the respective elementary or high school districts in the county.

(3) For the purposes of 20-9-370 and 20-9-371, if the district mill value per elementary ANB or the district mill value per high school ANB is less than the corresponding statewide mill value per elementary ANB or statewide mill value per high school ANB, the district may receive debt service assistance in the form of a state advance or reimbursement for school facilities in support of the debt service fund."

Section 20. Section 20-9-368, MCA, is amended to read:

(1) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the elementary school districts in the county is the difference between the county mill value per elementary ANB and the statewide mill value per elementary ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the

elementary districts in the county.

(2) The amount of guaranteed tax base aid per ANB that a county may receive in support of the retirement fund budgets of the high school districts in the county is the difference between the county mill value per high school ANB and the statewide mill value per high school ANB, multiplied by the number of mills levied in support of the retirement fund budgets for the high school districts in the county.

(b) subtract the prior year taxable valuation of the ~~district~~ county from the product obtained in subsection (3)(a); and

(c) divide the remainder by 1,000 ~~to determine the equivalent to the dollar amount of guaranteed tax base aid for each mill levied.~~

(4) Guaranteed tax base aid provided to any county ~~or district~~ under this section is earmarked to finance the fund or portion of the fund for which it is provided. If a county ~~or district~~ receives more guaranteed tax base aid than it is entitled to, the excess must be returned to the state as required by 20-9-344."

(3) Upon conclusion of litigation, the balance of the money in the fund reverts to the general fund and must be used to reduce the district's general fund ~~BASE~~ budget levy BASE funding revenue requirement computed pursuant to 20-9-141."

Section 23. Countywide levies to support BASE budgets. (1) Pursuant to 20-9-141, the portion of

a district's BASE budget not funded by BASE aid, fund balance reappropriated, nonlevy revenue, and, if applicable, a district levy for support of a school not approved as an isolated school under the provisions of 20-9-302 is the district's BASE funding revenue requirement and must be funded through an elementary or high school countywide levy as described in this section.

(3) The BASE funding revenue requirement for a joint school district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the BASE funding revenue requirement for each county as provided in 20-9-151.

(5) The county superintendent shall:

(a) calculate the number of mills to be levied on the taxable property in the county to finance the BASE funding levy requirement by ~~dividing~~ subtracting from the amount determined in subsection (3) ~~(2) any~~ fund balance determined under subsection (4) and then dividing the remaining total by the sum of:

(i) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(ii) the taxable valuation of the district divided by 1,000; and

(b) report the number of mills required to fund the BASE funding levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values.

(6) The county commissioners shall fix and set the countywide BASE funding levies in accordance with 20-9-142.

The office of public instruction shall prepare for this implementation and support counties and school districts with this transition, including any necessary rulemaking, in a timely manner.

(2) (a) The superintendent of public instruction shall determine the multiplier used to calculate guaranteed tax base funding for the countywide levy for BASE funding support in 20-9-366(5)(a) for fiscal year 2027 to result in a statewide distribution of guaranteed tax base funding for the countywide levy for BASE funding support equal to the statewide distribution of guaranteed tax base funding for the BASE budgets of school districts in fiscal year 2026 multiplied by 1.03.

(b) The adjustment to the multiplier under subsection (2)(a) must remain in effect for subsequent fiscal years unless otherwise provided by law.

Section 26. Codification instruction. [Section 23] is intended to be codified as an integral part of Title 20, chapter 9, part 3, and the provisions of Title 20, chapter 9, part 3, apply to [section 22].

Section 28. Coordination instruction. If both House Bill No. 483 and [this act] are passed and approved, then [section 17 of this act], amending 20-9-336, is void and 20-9-336 must be amended as follows:

"20-9-336. School equalization and property tax reduction account -- uses. (1) There is a school equalization and property tax reduction account in the state special revenue fund. Contingent on appropriation by the legislature, money in the account is for distribution to school districts as the second source of funding for state equalization aid as provided in 20-9-343. At fiscal yearend, any fund balance in the account exceeding what was appropriated must be transferred to the guarantee account established in 20-9-622.

(2) The account receives revenue as described in 20-9-331, 20-9-333, and 20-9-360.

(3) (a) Beginning in fiscal year 2025 ~~2027~~, each December the superintendent of public instruction shall forecast the amount of revenue the account will receive in that fiscal year by dividing the sum of the taxable value of all property in the state reported by the department of revenue pursuant to 20-9-369 by 1,000 to determine a statewide value mill and then multiplying that amount by 95 mills, or the number of mills calculated by the department of revenue under 15-10-420 (8) for the applicable fiscal year the total number of mills specified in 20-9-331, 20-9-333, and 20-9-360.

(b) If the forecasted amount in subsection (3)(a) differs from the amount determined through the same calculation in the prior fiscal year by \$2 million or more and is:

(a) less by an amount greater than \$2 million, then the superintendent shall:

(i) decrease the multiplier used to calculate the statewide elementary and high school guaranteed ~~tax base ratios used for funding BASE budgets~~ guaranteed tax base ratio for the countywide levy for BASE funding support under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of guaranteed tax base aid distributed to eligible ~~school districts~~ counties equal to 85% of the decrease in the calculated amount between the 2 years; and

(ii) decrease the multiplier used to calculate the statewide elementary and high school mill value per ANB for school retirement guaranteed tax base purposes under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of retirement guaranteed tax base aid distributed to eligible ~~school districts~~ counties equal to 15% of the decrease in the calculated amount between the 2 years;

~~(b) — more, then the superintendent shall increase the multipliers used in the guaranteed tax base formulas under 20-9-366 and in the formula for school major maintenance aid under 20-9-525 to the nearest whole number by an amount calculated by the superintendent to result in an increase in the amount of guaranteed tax base aid and school major maintenance aid distributed to eligible counties and school districts equal to 55% of the increase in the calculated amount between the 2 years in the following order, with any amount exceeding the caps under subsections (3)(b)(i) through (3)(b)(iii) flowing to the next mechanism:~~

~~(i) — first, the multiplier used in calculating the statewide mill value per elementary and high school ANB for retirement purposes, not to exceed 305%;~~

~~(ii) — second, the multiplier used in calculating the amount of state school major maintenance aid support for each dollar of local effort, not to exceed 365%; and~~

~~(iii) — third, the multiplier used in calculating the facility guaranteed mill value per ANB for school facility entitlement guaranteed tax base purposes, not to exceed 300%.~~

~~(c) — If the forecasted amount in subsection (3)(a) is greater than the amount determined through the same calculation in the prior fiscal year, the superintendent, using an amount equal to 50% of the forecasted revenue growth up to revenue growth of 105% of the prior fiscal year revenue plus all forecasted revenue growth above 105% of the prior fiscal year revenue, shall:~~

~~(i) — first increase the multiplier used to calculate statewide mill value per elementary and high school ANB for retirement purposes under 20-9-366, not to exceed 305%, to the nearest whole number~~

determined by the superintendent to result in an increase in the amount of guaranteed tax base aid distributed to eligible counties as close as mathematically possible to the excess amount determined in subsection (3)(c); and

(ii) if there is an excess amount remaining after the 305% cap is hit under subsection (3)(c)(i),
then:

(A) the superintendent shall increase the percentages of the basic and per-ANB entitlements in 20-9-306(2)(b) and (3)(a) by whole numbers not to exceed 45.3% and 90% respectively, then the multiplier used to calculate the statewide elementary and high school guaranteed tax base ratios used for guaranteed tax base funding for the countywide levy for BASE funding support under 20-9-366 by whole numbers in a manner determined by the superintendent to result in an increase in the amount of guaranteed tax base aid distributed to eligible counties as close as mathematically possible to the excess amount remaining without an increase in the amount of countywide BASE funding levies on a statewide basis; and

(B) in making the calculations under subsection (3)(c)(ii)(A) and in calculating the guaranteed tax base aid ratios under 20-9-366 for the ensuing school fiscal year, the superintendent shall utilize a GTBA budget area for the prior year based on the adjusted percentages of the basic and per-ANB entitlements.

(4) (a) The adjustments to the multipliers and percentages under subsection (3) are applicable to state equalization aid distributions in the fiscal year following the adjustment.

(b) Adjustments to the multipliers and percentages made under subsection (3) remain in effect in subsequent years unless further changed under 20-9-366 or subsection (3) of this section or as otherwise provided by law."

Section 29. Effective date. [This act] is effective July 1, 2026.

The GTBA budget areas for joint districts must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county.

(b) "District mill value per ANB", for school facility entitlement purposes, means the taxable valuation in the previous year of all property in the district, except for property subject to the creation of a new school district under 20-6-326, divided by 1,000, with the quotient divided by the ANB count of the district used to calculate the district's prior year total per-ANB entitlement amount.

(4) "Guaranteed tax base aid budget area" or "GTBA budget area" means the portion of a district's BASE budget after the following payments are subtracted:

- (a) ~~direct state aid;~~

(B) ~~add the number derived in subsection (5)(a)(i)(A) as a percentage point increase to the multiplier used for the prior fiscal year;~~

(ii) ~~for fiscal years 2024 through 2031, if the revenue transferred to the state general fund pursuant to 16-12-111 in the prior fiscal year is less than \$1 million more than the revenue transferred in the fiscal year 2~~
