**Section 11. Qualification for reconciliation payment -- petition to qualify.** (1) A school district that

has enrolled and admitted an isolated pupil is qualified for a reconciliation payment as provided in this section when the isolated pupil is a resident of a contiguous school district that has a taxable value of at least \$100 million and a taxable value per-ANB amount that is greater than 1.5 times the taxable value per-ANB amount in the school district of attendance.

(2) (a) On payment of a processing fee of \$100 to the county superintendent of the county in which the resident school district of an isolated pupil is located, a school district that meets the requirements of subsection (1) may annually petition to qualify for a reconciliation payment calculated pursuant to [section 12].

(b) To qualify for a reconciliation payment in the subsequent fiscal year, the school district shall file a petition with the county superintendent no later than June 1. (4) The county superintendent shall complete the inquiry and communicate the findings and determination, including a designation of the number of full-time equivalent isolated pupils enrolled in the district of attendance, to the petitioner and the resident school district within 30 calendar days from the date of receipt of the petition. If further information or clarification is required to make an informed determination, the county superintendent may request additional documentation or engage in dialogue with the petitioner within this timeframe.

(5) (a) An affected school district that disagrees with the county superintendent's determination

may appeal to the district court by filing a verified petition with the court clerk and serving a copy of the petition on the county superintendent. The petition must clearly outline the objections of the school district to the basis of the county superintendent's determination and the objective criteria set forth in [sections 10 through 14].

(b) Filing and serving the petition stays the county superintendent's decision until the court reaches a final determination on the matter. The court shall schedule a hearing at the earliest possible convenience. The court shall review the record and determine whether the county superintendent's decision constituted an abuse of discretion. The proceedings must be summary and informal, and the court's decision must be considered final.

**Section 12. Proportional reconciliation of taxable valuation -- reimbursement for isolated pupils.** (1) The resident school district shall impose a levy and make a reconciliation payment to the school district of attendance as calculated in this section when a petition under [section 11] has been granted to a school district of attendance by the applicable county superintendent.

(3) The resident school district shall calculate and impose levies on all of its taxable value sufficient to generate the amount of the reconciliation payment. The reconciliation payment must be incorporated into the tuition budget of the district of residence. The amount of the reconciliation payment must be calculated by:

(a) multiplying the number of full-time equivalent isolated pupils of the resident school district in the prior year as approved by the county superintendent pursuant to [section 11(4)] by the mill value per-ANB amount determined pursuant to subsection (4); and

(b) multiplying the result of subsection (3)(a) by the number of mills reported by the district of attendance under subsection (2).

(4) The mill value per-ANB amount for the resident school district under subsection (3)(a) must be calculated by the office of public instruction and reported by May 1 with the information required in 20-9-369(1)(a) to the resident school district and to the school district of attendance based on the certified taxable

value of the resident school district for the prior school fiscal year divided by the resident school district's budgeted ANB in the prior school fiscal year.

(5) Revenue generated from the reconciliation payment levy imposed on the resident school district pursuant to subsection (4) must be deposited in the tuition fund of the resident school district and used solely for reconciliation payments to the district of attendance.

(6) By December 31, the resident school district shall pay at least one-half of the reconciliation payment provided for in this section to the school district of attendance. The remaining obligation must be paid by June 15 of the same fiscal year.

(7) Upon receipt of the reconciliation payment, a school district of attendance shall deposit the payment in the school district's flexibility fund or any other budgeted funds in the discretion of the trustees.

**Section 13. Advisory council.** (1) A school district with an enrollment of isolated pupils comprising 5% or more of its budgeted ANB shall establish an advisory council dedicated to fostering open dialogue and collaboration on matters that impact isolated pupils and other nonresident pupils from the areas in which isolated pupils reside. The council shall serve in an advisory capacity as a vital forum for listening to and voicing the concerns and insights of parents, guardians, and community members regarding the educational experiences of isolated pupils.

(2) The board of trustees of the district of attendance shall appoint members to the advisory council following a public notice process that invites community participation and expressions of interest. The size of the council, the terms of service, and specific responsibilities must be outlined by district policy. A majority of the council's members must be parents or legal guardians of isolated pupils. The board may appoint other stakeholders at its discretion.

(3) The agenda for regular meetings of the board may include, at the council's request, a dedicated item for a report from the advisory council.

**Section 14.** Section 20-6-105, MCA, is amended to read:

**"20-6-105. Transfer of territory from one district to another -- hearing on effects of proposed transfer -- burden of proof -- standard of proof -- appeal to district court.** (1) (a) Except as provided in ~~20-~~

6-214, 20-6-215, 20-6-308, and 20-6-322, ~~and subsections (1)(b) and (1)(c) of this section~~, a petition to transfer territory from one school district to another may be presented to the county superintendent if:

(ii) ~~(b)~~ the territory to be transferred is contiguous to the district to which it is to be attached, includes taxable property, and has school-age children living in it;

(iii) ~~(c)~~ the territory to be transferred is not located within 3 miles, over the shortest practicable route, of an operating school in the district from which it is to be transferred; and

(iv) ~~(d)~~ the board of trustees of the school district that would receive the territory has approved the proposed transfer by a resolution adopted by a majority of the members of the board of trustees at a meeting for which proper notice was given.

~~(b) — A petition to transfer territory to or from a K-12 district may not be presented to a county superintendent unless both school boards and the county superintendents have agreed in writing.~~

~~(c) — Registered voters within the exterior boundaries of school districts that consolidated during the years 2004 to 2008 may petition for changes in their boundaries under the law in effect on July 1, 2005.~~

(2) Once a petition to transfer territory has been filed, an additional petition to transfer that territory may not be filed for ~~4 years~~ 1 full fiscal year unless the county superintendents have agreed in writing.

(3) The petition for a transfer of territory must be delivered to the county superintendent and must:

(a) provide a legal description of the territory that is requested to be transferred and a description of the district to which the territory is to be transferred;

(b) state the reasons why the transfer is requested; and

(c) state the number of school-age children residing in the territory.

(4) If both the trustees of the receiving and transferring school districts have approved the proposed territory transfer in writing, the county superintendent shall grant the transfer.

(5) For any petition that meets the criteria specified in subsection (1) and contains the information required by subsection (3) but that has not been approved in writing by the board of trustees of the school district that would transfer the territory, the county superintendent shall:

(a) not more than 40 days after receipt of the petition, set a place, date, and time for a hearing to

consider the petition; and

(b) give notice of the place, date, and time of the hearing. The notice must be posted in the districts affected by the petition for the transfer of territory in the manner prescribed in this title for notices for school elections, with at least one notice posted in the territory to be transferred. Notice must also be delivered to the board of trustees of the school district from which the territory is to be transferred.

(6) The county superintendent shall conduct a hearing as scheduled, and any resident, taxpayer, or representative of the receiving or transferring district must, upon request, be heard. At the hearing, the petitioners have the initial burden of presenting evidence on the proposed transfer's effect on:

(a) the educational opportunity for the students in the receiving and transferring districts, including but not limited to:

- (i) class size;
- (ii) ability to maintain demographic diversity;
- (iii) local control;

(B) if the transfer is rejected, the taxpayers of the district to which the territory is to be transferred;

(ii) the significance of any loss in state funding for the students in both the receiving and transferring districts;

In cases where the cumulative effect of other transfers of territory out of the district in the previous 8 years is equal to or greater than 25% of the district's taxable value, the following additional factors must be considered and weighed in the decision:

(A) the district's rate of passage of discretionary levies placed before the voters over the previous 8 years;

(B) the district's reduction or elimination of instructional staff or programs over the previous 8 years; and

(C) any increase in district taxes over the previous 8 years and the likely increase in district taxes if the transfer is granted.

(7) After receiving evidence from both the proponents and opponents of the proposed territory transfer on the effects described in subsection (6), the county superintendent shall, within 30 days after the hearing, issue findings of fact, conclusions of law, and an order.

(8) If, based on a preponderance of the evidence, the county superintendent determines that the evidence on the effects described in subsection (6) supports a conclusion that a transfer of the territory is in the best and collective interest of students in the receiving and transferring districts and does not negatively impact the ability of the districts to serve those students, the county superintendent shall grant the transfer. If the county superintendent determines that, based on a preponderance of the evidence presented at the hearing, a transfer of the territory is not in the best and collective interest of students in the receiving and transferring districts and will negatively impact the ability of the districts to serve those students, the county superintendent shall deny the territory transfer.

(9) The decision of the county superintendent is final 30 days after the date of the decision unless it is appealed to the district court by a resident, taxpayer, or representative of either district affected by the petitioned territory transfer. The county superintendent's decision must be upheld unless the court finds that the

county superintendent's decision constituted an abuse of discretion under this section. The county superintendent shall notify the department of revenue of the approval of a petition to transfer territory from one school district to another.

(10) Whenever a petition to transfer territory from one district to another district creates a joint district or affects the boundary of an existing joint district, the petition to transfer territory must be delivered to the county superintendent of the county in which the territory proposed to be transferred is located. The county superintendent shall notify any other county superintendents of counties with districts affected by the petition, and the duties prescribed in this section for the county superintendent must be performed jointly. If the number of county superintendents involved is an even number, the county superintendents shall jointly appoint an additional county superintendent from an unaffected county to join them in conducting the hearing required in subsection (6) and in issuing the decision required in subsection (8). The decision issued under subsection (8) must be made by a majority of the county superintendents.

(11) A petition seeking to transfer territory out of or into a K-12 district must propose the transfer of territory for both elementary and high school purposes. In the case of a proposed transfer out of or into a K-12 district, a petition that fails to propose the transfer of territory for both elementary and high school purposes is invalid for the purposes of this section.

(12) If a petition to transfer territory is granted under this section, for the 3 years immediately following the transfer:

(a) the taxable value of territory transferred must be divided equally between the school district from which the territory was transferred and the school district to which the property was transferred;

(b) when certifying taxable values pursuant to 15-10-202, the department of revenue shall include half of the certified value of the transferred territory in each school district's certified taxable value;

(c) each school district shall calculate the mills required for its district operational levies, as defined in [section 10], based on the certified taxable value provided under subsection (12)(b); and

(d) when levying taxes for district operational levies pursuant to 20-9-142, the county commissioners shall fix and levy one-half of the number of mills for each district's operational levies on the full taxable value of all property within the transferred territory.

(13) (a) When a petition to transfer territory has been granted for a school district that has paid a

reconciliation payment to another school district under [section 12]:

(i) the school district to which the territory has been transferred shall budget and impose a levy for 3 consecutive years following the transfer to generate revenue equal to the most recent reconciliation payment it received from the district from which the territory has been transferred; and

(ii) the school district imposing the levy shall deposit the revenue in its tuition fund and pay the district from which the territory was transferred an amount equal to the revenue raised in subsection (13)(a)(i) for 3 consecutive years following the transfer, with at least half of the annual payment made by December 31 and the remainder by June 15 of the same fiscal year.

(b) The district from which the territory is transferred shall deposit the received payment in its flexibility fund or allocate it among its budgeted funds as determined by the trustees."
