Description of fiscal impact

HB 892 requires the Commissioner of Securities and Insurance to transfer \$10 million of the insurance tax revenue currently deposited to the state general fund to the state property assistance account established in SB 90. The bill is contingent on the passage of SB 90. There is a \$50,000 appropriation to the Department of Revenue for the 2027 Biennium for implementation of SB 90.

FISCAL ANALYSIS

Assumptions

State Auditor's Office

- 1. The State Auditor's Office (SAO) manages the process for authorized insurers to file a tax report and pay the insurance premium tax as outlined in 33-2-705, MCA, on or before March 1each year.
- 2. As outlined in 33-2-708(3)(b), MCA, 33% of the premium tax collected is deposited in a state special revenue account for the Healthy Montana Kids Plan. The remaining premium tax collections are deposited to the general fund.
- 3. HB 892 requires the SAO to transfer \$10 million of the premium tax deposited in the general fund under current law to the state property tax assistance account, provided for in new Section 2 of SB 90, at the end of each fiscal year.

Department of Revenue

- 4. There is an appropriation of \$50,000 to the Department of Revenue for the 2027 Biennium to implement SB 90.
- 5. Increasing the distribution to the property tax assistance account in SB 90 will increase the assistance per residence by approximately \$42.79 in FY 2026, \$42.42 on FY 2027, \$42.06 in FY 2028, and \$41.70 in FY 2029.

Fiscal Note Request - As Introduced

- 6. There are no additional costs to the department beyond those required for SB 90.
- 7. This bill is void if SB 90 fails to pass.

Department of Administration

8. As the state treasurer, the Department of Administration (DOA) will continue to assist the commissioner in depositing funds laid out in Section 1(3)(a) of the bill. This is already a normal state treasurer duty resulting in no fiscal impact for DOA.

Effect on County or Other Local Revenues or Expenditures **Department of Revenue**

1. HB 892 increases the property tax assistance available to each primary home, which counties may retain if the assistance is greater than a home's property tax liability.

Technical Concerns

State Auditor's Office

1. This analysis assumes the annual \$10M transfer in Section 1, (3)(c) occurs after the 33% distribution to the Healthy Montana Kids (HMK) fund, resulting in a \$10M loss to the general fund each year. If the transfer should happen prior to the 33% distribution, then the general fund and the HMK funds would lose \$6.7M and \$3.3M per year.
